

This Rodeo

Waylon

Ha!

Now I've been trying to lose my past
Traveling slow while living so fast
I've traded in them high healed sneakers
And my blue suede shoes for these snake skin boots, yeah

You know, I'm not afraid of dying
Just open that gate and I'll come flying
Don't need no clown taking care of me
It takes a barrel just to set me free, now

I ain't stupid, I'm not crazy
I'm just tired but don't call me lazy

I've been bucked of, I've been lied to
I've been stepped on and I've tried to
Stay on this one man show
But I can't get off of this rodeo now

I'm carrying down this heavy load
Headed down this one way road
'Cause baby needs things that I can't buy her
Now please don't tell me that I lost my fire

I've gotta do this till I'm crippled for life
Or whose gonna take care of my kids and my wife

I've been bucked of, I've been lied to
I've been stepped on and I've tried to
Stay on this one man show
I can't get off of this rodeo now
I've been bucked of, I've been lied to
I've been stepped on and I've tried to
Stay on this one man show
But I can't get off of this rodeo
Rodeo
Rodeo

I've been bucked of, I've been lied to
I've been stepped on and I've tried to
Stay on this one man show
But I can't get off of this rodeo now
I've been bucked of, I've been lied to
I've been stepped on and lord how I've tried
There's a lot of bad bulls down on music row
Won't let me off of this rodeo
Rodeo...
