

Wicked Way

Waylon

There's a song in my head and it's looking for a way to get out
Out all of the things inside, just what I'm screamin' out loud
These words on my mind, I try to understand what they mean
And I feel them coming, it's gonna knock you right off of your
feet, ooh

'Cause I always see a sunshine that keeps on following me
Not a cloud in the sky, 'cause you're always right next to me
I'll do you no wrong, maybe I should just let it be
'Cause I know you're gonna have your wicked way with me
Your wicked way with me

Now the words on my lips are rollin' right out of my mouth
Baby, give me your hand, I'll take you right out of this crowd
Well, nothing's been said and not enough has been done
Now you're screamin' out loud and not because I'm doing you wrong

'Cause I always see a sunshine that keeps on following me
Not a cloud in the sky, 'cause you're always right next to me
I'll do you no wrong, maybe I should just let it be
'Cause I know you're gonna have your wicked way with me
Wicked way with me, yeah

No no baby, no no ooh

I always see a sunshine that keeps on following me
Not a cloud in the sky, 'cause you're always right next to me
I'll do you no wrong, maybe I should just let it be
'Cause I know you're gonna have your wicked way with me
Wicked way with me, yeah
