

Happy Birthday Julie

Wayne Hancock

Happy birthday Julie
My, it's good to see you, gal
The last time I saw you smile you were still my pal
Yeah, I sure did love you
But somehow you slipped away
Now instead of lovin' you
I'm reminiscin' on your birthday

Do you remember those warm summer nights when the stars hang in
the air?
I didn't have a dime to my name, but you didn't care
Now you've gotten married and everything has changed
But happy birthday Julie just the same

Yes happy birthday Julie just the same
Julie...
