

This Lonely Night

Wayne Hancock

This lonely night - I'm missin you this lonely night
Well, everywhere I go I got the blues - cause youre not
mine

This lonely hour - makes for a lonely ride
O my heart is breaking
Cause you're gone for good this time

O loneliness - ain't no stranger to me I guess
I'm gonna hang my head down low

Tonight and cry
I just got those lowdown blues
Cause I sure am stuck on you
These words I write for you - This lonely night
