

Little Bits And Pieces

Wayne Newton

Today I found some ol' remains chains that once held us together
r
Petals of old faded rose and a few old I-love-you-
forever letters
And I ran across some mem'ries of you I thought I'd never see a
gain
God knows I looked high and low
Searched everywhere for the way we were back then

But all I found were little bits and pieces
Odds and ends of things we tore in two
But all I found were little bits and pieces
But I couldn't find one piece of love that belonged to me and y
ou

While going through what we went through
I ran into some dreams that we left scattered
Things we thought meant everything
Time had stained till they no longer mattered
Lord knows I left no stone unturned
Went back to every bridge we burned behind us
I even tried to drawn your face but I was all that showed up in
the dust

But all I found were little bits and pieces...
