

# Here In This Town

Wayne Watson

Here in this town  
They all all know your name  
But the way they treat you  
They ought to be ashamed  
It's getting hard to hold your head up here in  
This town

Turn around  
Turn around  
You don't want to see us now  
I'm not sure one righteous man could be found  
Here in this town

Here in this town  
They all say your name  
Sunday, it's holy  
Monday profane  
How long before you bring this place to the ground

Here in this town  
They all know the truth  
Quote verse and chapter  
But they don't know you  
It's living happy ever after here in this town  
Yeah  
Ooh, yeah

Here in this town  
Here in this town, Ooh  
Yeah, here in this town
