Moonwalk

Moonwalk
Moonwalk
Moonwalk

When you say that is light, defining the radiance
Walking on the water's surface, letting the waves undulate
We have the opportunity to create the world
Let all be in awe (Hold up)

When dawn breaks through the chaotic sky
Allowing me to open up the greatness of this wilderness
As though returning to the beginning of the universe
Taming the darkness, competing with the earth
Watering till it love appears
Go go go go
Life is that amazing, whoa whoa whoa whoa
Ooh through flight and endless searching
Civilization finally arrived on the seventh day, yeah

The future is sweeping towards us
Dreams are earth-shattering and sky-shattering
I, who was chosen by love, is boldly doing the Moonwalk

When the classics have
Recorded down the unknown greatness
You came to the god-chosen city and popularized the Moonwalk
When people sing of great legends
I choose to bend my waist
Towards the newly-formed world

I take the first step of the Moonwalk

Moonwalkin' Moonwalkin'

Extending from the highest point to the horizon

Bystanders don't enter my city

An unthinkable hurricane is about to arrive

I want to build a god-chosen nation, cool

Only dreamers are allowed to enter proudly

I've never denied that I'm a believer of forerunners

There must be an even bluer (brighter) path at the tip of the pyramid, ah

No need for a moat or protective city walls, yeah

For sadness will naturally be banished by happiness, drippin'

Your smile will become a classic

The brilliance of sunlight, the haziness of the moonlight

Exist for the sake of promises

Go go go go

Life has bloomed like that whoa whoa whoa whoa

Ooh, flying continuously and burning fearlessly

Civilization still has ten-thousand years of greatness, yeah

After a long wait, woah

The century will finally extend, woah

How many pairs of eyes are following us freely doing the Moonwalk

When the classics have

Recorded down the unknown greatness

You came to the god-chosen city and popularized the Moonwalk

When people sing of great legends

I choose to bend my waist

Towards the newly-formed world

I take the first step of the Moonwalk

Time sends off the past and welcomes the future

I'm lonely, therefore I exist

Till you come

To the nameless uncivilized

Under the calling of fate

Setting off into the distant

And we gonna take over the moon

5 4 3 2 1 Moonwalk

When the classics have

Recorded down the unknown greatness

You came to the god-chosen city and popularized the Moonwalk

When people sing of great legends

I choose to bend my waist

Towards the newly-formed world

I take the first step of the Moonwalk
