Light doesn't turn around the corner

Straight line turns back when it's impossible to go forward

It's only natural but it's not

Dreams fly high without wings

And create a world

The one chosen by the God, no no

Wake up in a transparent space go to a higher level

The next challenge marches towards time  
Argue whether the unknown destiny will be decided

In an instant hesitate and go back  
In an instant regret and go back  
In an instant relax and go back  
Limit limit  
In an instant transcend the greed  
In an instant endure and go beyond  
In an instant transcend the limit  
Get it get it uh

There are no boundaries on the ground and the sky is limitless  
If we could turn back time  
Make a new start and turn back  
This journey is called transcending time and space

Oh start the ego again  
Minute by minute  
The path to the future wouldn't be repeated  
Oh my colorless consciousness wakes up  
Turning back time 5432  
Stop rewind turn back time  
Stop rewind turn back time 5432  
Stop rewind turn back time (Stop yea got that stop)  
Stop rewind turn back time

Look back on what I've lost (Countless things I've lost)  
I have flames still alive in my hands  
Repeated cause and effects (Repeated cause and effects)  
I rewrite my stupidity into maturity  
Yeah I'm a beast  
Don't sweat it  
I'll overcome the time  
Go get it  
I should keep digging into the secret at the speed of Mach  
If I notice the truth of time  
I see the face of vision

Early morning is waiting for a bigger stage  
If I reflect on my naivety, it will unfold  
Live it up double dose  
More colors  
I say no  
Turn me back to colorless Start over  
Create myself again from the past  
I'm awake and I'll make a new start

There're no boundaries on the ground and the sky is limitless  
If we could turn back time  
Make a new start and turn back  
This journey is called transcending time and space

Oh start the ego again  
Minute by minute  
The path to the future wouldn't be repeated  
Oh my colorless consciousness wakes up  
Turning back time

Like a kaleidoscope, temptation is everywhere  
We're hovering over the chaotic earth  
Look at the colorless sound, scent, flavor, touch, and the law intuitivey  
The time is ticking away

Oh start the ego again  
Minute by minute  
The path to the future wouldn't be repeated  
Oh my colorless consciousness wakes up  
Turning back time

Oh rewrite the history  
Minute by minute (If we could turn back time)  
From myself in the past to the future  
Oh my colorless consciousness wakes up  
Turning back time
