

Never Turn Back

We Are Harlot

Get back get back this is not a test
Run away, she's gonna eat you alive
My heart my heart's beating out of my chest
Cause your hell, is our heaven
She shakes she shakes she's a teenage dream
She's walked, straight out of hell
She's learned she's learned you should hear her scream
She's mine, tonight

She's not an angel but she takes me away to somewhere close to
heaven,
She's not the devil but she makes me feel so, I don't know

Come inside, I don't mind
If you'll go when the sun comes up
It's hard to show you and I want you to know
But you never turn back, but you never turn back
No you never turn back, you never turn back
No you never turn, you never turn back

Don't stop don't stop, shaking head to toe
So close, can you feel it?
Your heart your heart's beating out of your chest
Turn it up, we're almost ready to blow
I'm lost I'm lost in a daydream
Come on over, we're not lovers

She's not an angel but she takes me away to somewhere close to
heaven,
She's not the devil but she makes me feel so, I don't know

Come inside, I don't mind
If you'll go when the sun comes up
It's hard to show you and I want you to know

Come inside, I don't mind
If you'll go when the sun comes up
It's hard to show you and I want you to know
But you never turn back, but you never turn back
No you never turn back, you never turn back
No you never turn, you never turn back
No you never turn back, no you never turn, you never turn back
