

# Hey

We Are KING

Hey, I know how it will end 'cause it's already been told  
Happily after only happens in fairytales, daydreams or never  
But I wished hard on the stars

Now here you are (That's where you are)  
Shining through the sky, light in my dark  
Even stars burn out but you held the spark  
Now here you are to stay (Here in my heart you'll stay)

Hey, it's true  
You were made for me, and I you  
Beyond cloud nine  
Higher than high past the sky where I'll find  
Not too far, in the stars

Now here you are (That's where you are)  
Shining through the sky, light in my dark  
Even stars burn out but you held the spark  
Now here you are to stay (Here in my heart you'll stay)

Hey you are  
What I wished for when I saw that shooting star  
Hey, hey now you are  
All I wished on a star  
Hey, now you are  
All I wished on a star  
Hey, hey, hey now you are  
All I wished on a star
