

## Faith Sees Best In The Dark

### We Are Messengers

Loss always comes like a thief in the night  
It steals your breath and then it clouds your sight  
But sometimes you're winning just staying alive  
But don't let the hurt drown out your light

It's always darkest just right before dawn  
So keep moving forward, oh please just hold on  
'Cause God's got a plan, yeah I want you to know  
That it's gonna be alright, you gotta take it real slow

Faith sees best in the dark  
God hears every broken heart  
And when it all falls apart  
Remember, faith sees best in the dark

God stayed with me yeah when I couldn't live  
And mercy taught me it's okay to forgive  
'Cause some things we're not meant to carry alone  
Yeah, it's gonna be alright, you gotta take it real slow

Faith sees best in the dark  
God hears every broken heart  
And when it all falls apart  
Remember, faith sees best in the dark

We all need room to grieve  
Pain takes time to heal  
So take all you need, yeah

Faith sees best in the dark  
Faith sees best in the dark  
Faith sees best in the dark  
God hears every broken heart  
When it all falls apart  
Remember, faith sees best in the dark, yeah

'Cause when it all falls apart  
Remember, faith sees best in the dark, yeah
