Giants Fall

We Are Messengers

Why do I do what I don't wanna do?
Why do I love what I should hate?
Why have I sold myself to be a slave?
Why do I give my heart away?
I'm tired of singing songs of victory
When I've been living in defeat
I'm done standing with the enemy
This is a war won on my knees

Who will rescue me?
Come wash me clean
And set me free

Cause I wanna see these giants fall, giants fall
And I wanna crash through every wall, every wall
In between you and me give me faith to believe
That I'm, I'm gonna see these giants fall
I'm gonna see these giants fall
I'm gonna see these giants fall

Come and set my feet on solid ground
Oh shake the fear that's holding me
You're the power I need to tear it down
You're the only hope I see

Who will rescue me?
Come wash me clean
And set me free

Cause I wanna see these giants fall, giants fall
And I wanna crash through every wall, every wall
In between you and me give me faith to believe
That I'm, I'm gonna see these giants fall
I'm gonna see these giants fall
I'm gonna see these giants fall

My hands are open in surrender
I wave my white flag high
You alone are my saviour
I want more than to survive

I wanna see these giants fall, giants fall
And I wanna crash through every wall

Cause I wanna see these giants fall, giants fall
And I wanna crash through every wall, every wall
In between you and me give me faith to believe
That I'm, I'm gonna see these giants fall
I'm gonna see these giants fall
I'm gonna see these giants fall
I'm gonna see these giants fall
