

# Keep The Faith

## We Are Messengers

Don't grow weary, don't grow cold, no  
Remember everything He told ya  
There's nothing new under the sun, no  
Still His promises are for ya

I've tried and tried to stop the noise but  
I'm so glad that I can hear Your voice say

Listen, child, listen  
You're a citizen of God on high  
Listen, oh listen  
Let His peace guard your heart and your mind  
One day soon there'll be no more pain  
Every tear will be wiped away  
So listen, child, listen  
His love for you is here to stay  
So keep the faith

When He said He'd never leave ya  
Proved it with His hands and feet ya  
So when it's darkest 'fore the dawn ya  
Remember joy comes in the morning

Listen, child, listen  
You're a citizen of God on high  
Listen, oh listen  
Let His peace guard your heart and your mind  
One day soon there'll be no more pain  
Every tear will be wiped away  
So listen, child, listen  
His love for you is here to stay  
So keep the faith

When everything's shaking  
Keep the faith  
When your heart keeps breaking  
Keep the faith  
When the light is fading  
Keep the faith  
Hang on every word He's saying, every word He's saying

Listen, child, listen  
You're a citizen of God on high  
Listen, child, listen  
You're a citizen of God on high  
Listen, oh listen  
Let His peace guard your heart and your mind  
One day soon there'll be no more pain  
Every tear will be wiped away  
So listen, child, listen  
His love for you is here to stay  
So keep the faith  
So keep the faith
