## We Are Messengers

Find me down here on my knees  
Who I've been I can't believe  
I need you  
Blazing like the fiery sun  
Come burn all the shameful things I've done  
I need you

You're a wildfire  
You are the one  
Who lights up the dark with a furious love  
Take my ashes and turn them to gold  
Sweep over me with your furious love  
Fire up my heart  
Oh c'mon light me up

Steady now you lead me home  
Into arms that never let me go  
Stand beside me in the flame  
Let your light ignite a fire  
Inside me  
I feel it rising

You're a wildfire  
You are the one  
Who lights up the dark with a furious love  
Take my ashes and turn them to gold  
Sweep over me with your furious love  
Fire up my heart  
Oh c'mon light me up

You're a wildfire  
You are the one  
Who lights up the dark with a furious love  
Take my ashes and turn them to gold  
Sweep over me with your furious love  
Fire up my heart  
Oh c'mon light me up  
You're a wildfire  
You're a wildfire

I need you now  
Burn my walls down

You're a wildfire  
You are the one  
Who lights up the dark with a furious love  
Take my ashes and turn them to gold  
Sweep over me with your furious love

You're a wildfire  
You are the one  
Who lights up the dark with a furious love  
Take my ashes and turn them to gold  
Sweep over me with your furious love  
Fire up my heart  
Oh c'mon light me up  
You're a wildfire

You're a wildfire  
You're a wildfire  
You're a wildfire
