

# Behavior Unbecoming

## We Are Scientists

I know we've been here before so it's not surprising  
We never see any stars even start aligning  
Why do I need this enough to keep running toward it?  
I shouldn't even be here, if I can't afford it

I'm done guessing  
Can't we settle  
Whatever this is?  
Half expecting  
Something better  
Half expecting this

Is it okay to admit that I should be worried?  
Because this behavior is nothing, if not unbecoming  
Is relief going to come when we least expect it  
Or are we leaving ourselves out here unprotected

I'm done guessing  
Can't we settle  
Whatever this is?  
Half expecting  
Something better  
Half expecting this

Somehow nothing that I say here is gonna make this seem right  
I guess I hoped you'd believe me  
You know you're the only reason that I came here, tonight  
And now I really should be leaving  
I swore everything would fall right into place when it's time  
This was supposed to be easy  
You know you're the only reason that I came here, tonight  
And now I really should be leaving

I'm done guessing  
Can't we settle  
Whatever this is?  
Half expecting  
Something better  
Half expecting this
