

Stay here with me  
I don't mind  
It's not impeaching on my time  
Let me sit here  
For a while  
Just getting misty off-white wine

I'm miles away  
I'm miles away  
I'm miles away  
I'm miles away

I may be listing  
But I'm not done  
Please, can you fix me another one?  
When it hits me  
All at once  
My body is listening, but I'm gone

Miles away  
I'm miles away  
I'm miles away  
I'm miles away

Far from making me your thrall (Far from making me your thrall)  
The only thing I know for sure (The only thing I know for sure)  
All it takes is this, you know (All it takes is this, you know)  
Still we need it to our core

All this history  
All I've known  
Is disappearing to my core

Miles away  
I'm miles away  
I'm miles away  
I'm miles away
