

## Here Goes

We Are Scientists

Is it my imagination  
Or is it getting warm?  
Just so that we're clear:  
This is going to get weird  
Now you've been warned  
It's the kind of situation  
That can set things off  
It's sure easy to miss  
When you don't know what it is  
That could be wrong

If you really want to know, say so  
Why wait? Here goes  
If I really have to say  
Okay, here goes

I might have learned a lesson  
But with any luck  
I'm gonna get this all in hand  
I could pretend to understand  
Or I could just fess up  
Take another guess, now  
Yours is just as good  
I can't say this aloud  
It's not that I'm so proud  
I'm just not sure I should

If you really want to know, say so  
Why wait? Here goes  
If I really have to say  
Okay, here goes

If you really want to know, say so  
Why wait? Here goes  
If I really have to say  
Okay, here goes  
If you really want to know, say so  
Why wait? Here goes  
If I really have to say  
Okay, here goes
