Hold On

We Are Scientists

I don't expect that your situation
After extensive consideration
Allows for attention that I've been taking up

All of these awkward, desperately hopeful
Questions that I have expertly chosen
Need to be answered before I'm over us

And if something's wrong
Hold on
And if something's wrong
Hold on

Everything I once accepted as gospel
Now seems at best like it must be forgotten
Lest we forget our memories who we are

All other options are imperfections
I only hope that forward momentum
Must count for something, or else we would've stopped

And if something's wrong
Hold on
And if something's wrong
Hold on
And if something's wrong
Hold on
And if something's wrong
Hold on

Go be unimpressed
You and all your unfair assumptions
This is for the best
Just as long as you care for something

And if something's wrong
Hold on
And if something's wrong
Hold on
And if something's wrong
Hold on
And if something's wrong
Hold on
