

I Already Hate This

We Are Scientists

Tell me
Is the secret out? I'm freaking out
This kiss-and-tell's
Gonna kill me

Not even I know
What I want
Not even I know

What I want
Man, I already hate this, please don't make me say it
Oh my god
Even if I could take this, I don't wanna face it
I wouldn't wish this on you

Can you blame me
For catastrophizing every time?
I have to try
And explain this

Not even I know
What I want
Not even I know

What I want
Man, I already hate this, please don't make me say it
Oh my god
Even if I could take this, I don't wanna face it
I wouldn't wish this on you

Wouldn't wish this on you
Wouldn't wish this on you
I wouldn't wish this on you

What I want
Man, I already hate this, please don't make me say it
Oh my god
Even if I could take this, I don't wanna face it
I wouldn't wish this on you
I wouldn't wish this on you
I wouldn't wish this on you
