

Miracle Of 22

We Are Scientists

It's a complicated thing
Somehow I'm always measuring
(Just keep on looking forward)
(Just keep on looking forward)
The distance in between
What I believe and what is real
(Just keep on looking forward)
(Just keep on looking forward)

I guess I'm running out of time
I'm gonna have to make my move
If I somehow make it out alive
It'll be the miracle of '22

We've been through this before
It's not like it's so unique
(Just keep on looking forward)
(Just keep on looking forward)
I keep holding holding this pose
Through telescoping years
(Just keep on looking forward)
(Just keep on looking forward)

I guess I'm running out of time
I'm gonna have to make my move
If I somehow make it out alive
It'll be the miracle of '22

I guess I'm running out of time
I'm gonna have to make my move
If I somehow make it out alive
It'll be the miracle of '22

I guess I'm running out of time
I'm gonna have to make my move
If I somehow make it out alive
It'll be the miracle of '22
