

## Notes in a Bottle

We Are Scientists

Don't be so mysterious  
Why don't you clear this up?  
We all get carried away  
I know that's easy to say

So are you serious?  
I wouldn't be here unless  
I already knew  
So come on tell me the truth

Notes in a bottle  
That tell me what you want  
But I'm bound to find out  
I'm bound to find out  
I can deal with love or hate  
But just tell me either way cause  
I'm bound to find out

The fact is that we're here and now  
So can't we steer around  
Whatever stands in our way  
I know that's easy to say

Why don't you hear me out?  
Not try to keep it down  
Occlusions really no use  
So come on tell me the truth

Notes in a bottle  
That tell me what you want  
But I'm bound to find out  
I'm bound to find out  
I can deal with love or hate  
But just tell me either way cause  
I'm bound to find out  
I'm bound to find out

Whatever's left to know  
Let's get it on the move  
And let the records show

Notes in a bottle  
That tell me what you want  
But I'm bound to find out  
I'm bound to find out  
I can deal with love or hate  
But just tell me either way cause  
I'm bound to find out  
I'm bound to find out

Notes in a bottle (I'm so sick of waiting, always sitting waiting)  
Notes in a bottle (I'm so sick of waiting, always sitting waiting)
