

Now or Never

We Are Scientists

Call in a reprieve
If only for the briefest time
Let's promise to be real
Surely you don't really mind

There's so much that you need to know
I only hope you're ready
So if you will or won't
I guess it's now or never
Now or never
Now or never

Following our needs
Doesn't have to mean a crime
If punishment is sweet
Surely that should be a sign

There's so much that you need to know
I only hope you're ready
So if you will or won't
I guess it's now or never
Now or never
Now or never

I'm sorry to disarm you
By blowing up these hard truths now
Let's hope that you've got a long fuse

There's so much that you need to know
I only hope you're ready
So if you will or won't
I guess it's now or never
Now or never
Now or never
Now or never
Now or never
