

## The Same Mistake

We Are Scientists

For every catastrophe I've overthought  
It takes some gymnastics to think I'm so smart  
Perception's elastic and like it or not  
It's really the last thing that's kept us apart

It's the same mistake  
Just ask anyone  
I've always made  
Just ask anyone  
Just ask anyone

No, you don't like to wait, so I'll tell you right now  
You present any case, I'll have figured it out  
And it always sounds great coming out of my mouth  
I'm forever mistaken, but never in doubt

It's the same mistake  
Just ask anyone  
I've always made  
Just ask anyone  
Just ask anyone

It's the same mistake  
Just ask anyone  
I've always made  
Just ask anyone  
Just ask anyone  
Just ask anyone  
Just ask anyone
