

## Turn It Up

### We Are Scientists

That's some beginning  
It kinda makes it seem like we're already done  
A turned ignition  
Doesn't really matter once the engine floods

I wanna see this thing bend  
Just as far as we can both withstand  
So, can we let it keep getting out of hand?

'Cause everything is so much better when you turn it up  
Don't expect me to tell you when I've had enough  
It can be tough to know you're done  
But I think we'll see it when it comes  
Everything's so much better when you turn it up

It's long-sleeve weather  
But frankly we're both pretty hot  
Let's stop pretending  
That our intention's not to take it off

I wanna see this thing bend  
Just as far as we can both withstand  
So, can we let it keep getting out of hand?

'Cause everything is so much better when you turn it up  
Don't expect me to tell you when I've had enough  
It can be tough to know you're done  
But I think we'll see it when it comes  
Everything's so much better when you turn it up

I wanna see this thing bend  
Just as far as we can both withstand  
I wanna see this thing bend  
So, can we let it keep getting out of hand?

'Cause everything is so much better when you turn it up  
Don't expect me to tell you when I've had enough  
It can be tough to know you're done  
But I think we'll see it when it comes  
Everything's so much better when you turn it up  
Everything's so much better when you turn it up
