

You've Lost Your Shit

We Are Scientists

Nothing's done here intentionally
I thought you had your defenses ready
Now they've all come down, yeah
I'll admit it's attention-getting
I didn't mean to offend here
But that's how it's rolling out

Let's presume we're all okay here
Not consumed with my behavior
Now I've stepped in it

It's all been bricked
Cause you've lost your shit
The problem is
You've lost your shit

I can't believe how this whole thing started
We sink our teeth in, they're broken on it
Now, let's just slow it down
If we agree to be open-hearted
That doesn't mean we should both be honest
How's that gonna sound?

Let's presume we're all okay here
Not consumed with my behavior
Now I've stepped in it

It's all been bricked
Cause you've lost your shit
The problem is
You've lost your shit

Now I've stepped in it

It's all been bricked
Cause you've lost your shit
The problem is
You've lost your shit

(Let's presume we're all okay here)
It's all been bricked
Cause you've lost your shit
(Not consumed with my behavior)
The problem is
You've lost your shit
