

# Hope You're Well

**We Are the Ocean**

Spread the word  
Tell all of the Angels  
She's not coming home tonight  
I've been searching for some satisfaction no words can describe  
Our course is changing all the time  
I know she'll always be by my side

She whispered in my ear promises of a revolution  
A change towards the light  
I was lost but now I'm found again  
She gave me a hand when i needed a friend  
How could I be so blind

And every corner I turn  
Reminds me of you

And I say  
Yeah  
I hope your well  
Yeah  
I hope you're well  
I hope you're well

Have you heard  
They're playing our song  
I wished that you were here tonight  
I've been searching with a satisfaction no words can describe  
The intuition left behind  
It's always on my mind  
I've never been good with goodbyes  
But still I try

And I say  
Yeah  
I hope you're well  
Yeah  
I hope you're well  
I hope you're well  
I hope you're well  
I hope you're well  
Oh I hope you're well  
I hope you're well

Spread the word  
Tell all of the angels  
She's not coming home tonight  
(She's not coming home)
