

## Cold Like War

## We Came As Romans

War, war

Divided doubt, grown to separate  
Our weathered hearts search for home again  
Too afraid to take those uncertain steps  
But two years ago we were stronger then  
Yeah, two years ago we were stronger then  
(Yeah, two years ago we were stronger)  
When we dove head first, we were so alive  
Risking everything trying to change lives  
Now, my red eyes filled with shallow compromise  
Ripping tickets, split commitment, future undefined

I never wanted to watch us fight like war  
And turn away from each other  
We had to stop and surrender to restore  
And find a way to recover  
Losing all we should have been  
Consequences made in this  
Failure on to feel again, feel again

Blacked out, misguided rage, grown to separate  
Our hardened hearts from our resentful brains  
No way to see how far down you'll land  
When the fall you take wasn't part of your plan

(Cold)  
Doomed if you do  
(Like)  
Disowned if you don't  
(War)  
No way out for any one of us  
(Cold)  
Doomed if you do  
(Like)  
Disowned if you don't  
(War)  
No way out for any one of us

I never wanted to watch us fight like war  
And turn away from each other  
We had to stop and surrender to restore  
And find a way to recover  
Losing all we should have been  
Consequences made in this  
Failure on to feel again, feel again

(Cold like war)  
(Cold like war)

I bit my tongue, let the blood fill my mouth  
I just smiled while I sat there and bled out  
But, through this I found out where I stand  
I will never betray me again  
(Cold like war)  
Cold like war  
(Cold like war)

I never wanted to watch us fight like war  
And turn away from each other  
We had to stop and surrender to restore  
And find a way to recover  
Losing all we should have been  
Consequences made in this  
Failure on to feel again, feel again
