

Centrefolds & Empty Screens

We Have Band

You were warned what was happening
And you still fall short
Cant separate from, a smiling face
Cant separate from, a warm embrace
Cant separate from
From all the lies and all these needs
We've been around and all we've seen
Are centrefolds and empty screens
We've been around, you're all asleep?
Through all the lies and all these needs
We've been around and all we've seen
Are centrefolds and empty screens
We've been around
We've been around
Ask me why, I'll tell you why
Its time to go
Pack your things, and say goodbye
I said before
You grass is dead, previously green
Don't ask me why
Why all the lies and all these needs
We've been around and all we've seen
Are centrefolds and empty screens
We've been around, what do you mean?
Through all the lies and all these needs
We've been around and all we've seen
Are centrefolds and empty screens
We've been around
We've been around
You've had band
