

Modulate

We Have Band

This time I feel it sets you fall apart in a wall of words
This time I feel we need it arctic style for us to modulate
Cause we're walking at the door
Walking fasting then before
Fading in and fading out
Pushing hard against the line
Pushing hard it feels just fine
And we're living for today

This time it feels we're gonna turn a page our story will unfold
This time it feels we're saying through a haze so much to instigate
Cause we're walking at the door
Walking fasting then before
Breathing in and breathing out
Slowing down been running wild
Learn to love not turn away
And we're living for today

I was blind
Now I see
Open wide come for me
Let me in we'll be free
Open wide come for me
I was blind

Now I see
Open wide, come for me
Then we will be free
Open wide come for me

When I was ?? we agreed put some thoughts in place
By now it's time for us to rule things out
Need to clear head place
Let's make it here, it's where we belong
The past is history
Let's make it here, the time is now for us to modulate

I was blind
Now I see
Open wide come for me
Let me in we'll be free
Open wide come for me
I was blind
Now I see
Open wide, come for me
Then we will be free
Open wide come for me

I was blind
Now I see
Open wide come for me
Let me in we'll be free
Open wide come for me
I was blind
Now I see
Open wide, come for me
Then we will be free

Open wide come for me
