

Run

We Shot the Moon

Have you wasted precious years?
Are you avoiding every meal?
Do you feel love, it betrayed?

Fill your lungs you've got to breath
Fill your lungs and run
Far from me

Are your hopes in disarray?
Are feeling half awake?
Have your tears fell out of place?

Fill your lungs you've got to breath
Fill you lungs and run
Far from me

Don't you wait for me
Don't you wait cause my heart will never change

Have you wasted precious years?
Are you crying the same old tears?

Fill your lungs you've go to breath
Fill your lungs you've go to breath
Fill your lungs you've go to breath
Fill your lungs and run
far from me, from me

Don't you wait for me
Don't you wait cause my heart will never change
Don't you wait cause my heart will never change
Don't you wait cause my heart will never change
