

# Alien

We the Kings

This song name is called "Alien"

Hey, how are you?  
That's fine, I'm cool  
You won't talk to me  
I can't talk to you  
So go tell your friends  
I'm just some freak  
And weirdo with no place to go

Does anybody else feel like I do  
Does anybody else feel like I do

Man I feel like I'm an alien  
I can't find a place where I fit in  
All along I was just thinking there was something wrong with me  
But I am from a different galaxy  
Alien  
It's the only thing that's making sense  
All along I thought that I was all alone  
But there's gotta be someone out there, someone just like me

Hey, how are you?  
Oh damn, me too  
You hide from them  
Just like I do  
We're out of touch  
From all the rest  
So out of place  
So we all just left

Does anybody else feel like I do  
Does anybody else feel like I do

Man I feel like I'm an alien  
I can't find a place where I fit in  
All along I was just thinking there was something wrong with me  
But I am from a different galaxy  
Alien  
It's the only thing that's making sense  
All along I thought that I was all alone  
But there's gotta be someone out there, someone just like me

(Hey, how are you?)  
(That's fine, I'm cool)  
Someone just like me (You won't talk to me)  
(I can't talk to you)  
(So go tell your friends)  
(I'm just some freak and weirdo)  
Someone just like me  
(Hey, how are you?)  
(That's fine, I'm cool)  
Someone just like me (You won't talk to me)  
(I can't talk to you)  
Yeah yeah
