

3 AM

We Three

Goddamn
You've got me writing bout you every other song about you like
a madman
You've got me twisted round your finger when I really should've
figured I'm damned
You've been looking at me longer than we than we ever should've
been doin'
And goddamnit now I'm laying in your bedroom when it's 3 AM

Let's let it go
And take a dive into our lies
Then take me home
Ignore the whys just skip to sighs
Cause I think that we've been thinkin' bout it long enough
And that's long enough for me
So let's loose control
Cause it's 3AM and girl I got no plans to sleep

Goddamn
You got me thinking about you when I should be thinking bout an
exit plan
You've got me feeling like a Trevor cause I feel like you're my
Wonder Woman
And I know I gotta go but baby can I tell you one more thing
And goddamnit now I'm laying in your bedroom when it's 3AM

Let's let it go
And take a dive into our lies
Then take me home
Ignore the whys just skip to sighs
Cause I think that we've been thinkin' bout it long enough
And that's long enough for me
So let's loose control
Cause it's 3AM and girl I got no plans to sleep

Let's let it go
And take a dive into our lies
Then take me home
Cause I think that we've been thinkin' bout it long enough
And that's long enough for me
So let's loose control
Cause it's 3AM and girl I got no plans to sleep
