

God Things

We Three

My jealous eyes see everyone watching
I don't mean to cry but I don't see it stopping
You're more than life at that feeling's exhausting
Cause those angel eyes got me feeling God things

Remember when I couldn't catch my breath
Laid out in the rain until it left
Remember when we were up till five
You asked me questions till I worked at nine
I still look at you the way I did
Like you're the candy baby I'm the kid
When I kiss you does it make you miss it
Or does it feel the same way it did

Feeling God things
Feeling God things

I don't know if you'd ever lie to me
I only say it cause you keep surprising me
If there's a God it wouldn't be a surprise to me
That you're sent from heaven and you're His bride to be

Cause something about you makes me living without you
Seem like I wouldn't know how to anymore
So if you're an angel or not, the devil or even a god
I'll run till you tell me to stop, till I can be yours

Remember when I couldn't catch my breath
Laid out in the rain until it left
Remember when we were up till five
You asked me questions till I worked at nine
I still look at you the way I did
Like you're the candy baby I'm the kid
When I kiss you does it make you miss it
Or does it feel the same way it did

Feeling God things
Feeling God things
