

Insomniac

We Three

I just wanna be with you
With you
With you
You

Six-feet apart, but damn it felt so close
Your freckles made it hard to keep my distance though
You're heating up the room when I know I should feel cold
You were standing in the dark, but girl your body glows

So I saw
When you laughed
And suddenly my heart beat got faster
Every move you make, girl they all last
You're making me an insomniac

I don't think you know that you're the one in the room that bab
y won't have a clue
That they're the one in the room that everybody's into
Would love to tell you maybe help you, somehow give you a clue
That I just wanna be with you, with you, with you
I just wanna be with you, with you, with you

Forty other eyes, but mine are stuck on yours
Could ya tell me why you're not with all these other boys
Girl, tell me what you're thinking when you're moving like that
I took a step in closer then I took it right back

'Cause I saw
When you laughed
And suddenly my heart beat got faster
Every move you make, girl they all last
You're making me an insomniac

I don't think you know that you're the one in the room that bab
y won't have a clue
That they're the one in the room that everybody's into
Would love to tell you maybe help you somehow give you a clue
That I just wanna be with you, with you, with you
Just wanna be with you, with you, with you

I don't think you know that you're the one in the room that bab
y won't have a clue
That they're the one in the room that everybody's into
Would love to tell you maybe help you somehow give you a clue
That I just wanna be with you, with you, with you
Just wanna be with you, with you, with you
