

So They Say

We Three

I kinda wanna stay here all alone
Keep to myself and just stay home
Having to correct every thought I have
Might be part of the reason I feel sad
But life supposedly gets easier this way
Or so they say, aw yeah

I guess I just can't give in
When the world tells me no
I still feel it in my bones
Yeah, this is our society
But I'm comin' clean
I'm still a believer

Let's call a cab and we'll get out of town
Two blocks down we'll probably turn around
I never really smoke, but it's on my mind
All my friends say it'll pass the time
And life supposedly gets easier that way
Or so they say, yeah

I guess I just can't give in
When the world tells me no
I still feel it in my bones
Yeah, this is our society
But I'm comin' clean
I'm still a believer

Still a believer

I've been out all night
Just tryin' to find the light
Cause I'm still a believer
I'm stuck inside my mind
Been lost a thousand times
But I'm still a believer

I've been out all night
Just tryin' to find the light
Cause I'm still a believer
I'm stuck inside my mind
Been lost a thousand times
But I'm still a believer

I'm still a believer
Still a believer
Still a believer
