

# Sweater Weather

We Three

Your face half lit by the fire  
The sound of rain falling on the window seal  
I think you're wearing down to the wire  
Cause the window's cracked and you got the chills

It's been a little colder, winter here at home, you wonder if I  
'd like a sweater  
No thank you I am fine, your body's next to mine, this really is  
my kind of weather

Cuddles by the fire, a bottle of champagne and sower patch bite  
s  
Movies till way past midnight, when most of them were just alright  
Dancing to Sheeran's Barcelona, made me remember just how much  
I love ya  
Then I carry you up to your room baby, and whispered this under  
my breath  
Is it time we turn out all the lights, and give into the night

Red wine stains on the carpet, but not a beat was missed cause  
you're just that way  
I'm really tryin' to stay honest, but it gets so damn hard when  
you look that way

It's been a little colder, winter here at home, you wonder if I  
'd like a sweater  
No thank you I am fine, your body's next to mine, this really is  
my kind of weather

You lighten up the hallway, when the corners of your mouth raise  
e  
And you make me think of Coldplay cause damn the way you look at  
me  
Forwards feeling backwards, but, girl, you got a nack for  
Making me feel I'm ten feet off the floor

Cuddles by the fire, a bottle of champagne and sower patch bite
