

## when i'm with you

We Three

Listen up, look over here  
I'm a bit messed up between my ears  
I wanna tell you how I feel,  
But I don't know what's even real

And I know I've been running faster than I've been before  
And I know I've been running towards you  
And I hope you feel something when you see me walking through the door,  
Cause I know I feel something when I see you

Tell me what you need and if you're having trouble breathin'  
Cause I love the things you need and I don't wanna live life sleepin'  
And even when I'm breathin' it don't even feel like livin'

I hope you feel something when I come through  
Cause I know I'm only living when I'm with you

Pull me close and touch my skin  
Even when we feel nothin'  
I laugh a lot, but don't hear the joke Anything but be exposed

And I know I've been going places I ain't been before  
And I know you've been going places too, yeah  
But I hope you feel something when you see me walking through the door,  
Cause I know I feel something when I see you

Tell me what you need and if you're having trouble breathin'  
Cause I love the things you need and I don't wanna live life sleepin'  
And even when I'm breathin' it don't even feel like livin'

Yeah, I hope you feel something when I come through  
Cause I know I'm only living when I'm with you

Tell me something I don't know  
It could be you wanna go  
I'll only bleed a little though  
Could you lie and say you don't know

Tell me what you need and if you're having trouble breathin'  
Cause I love the things you need and I don't wanna live life sleepin'  
And even when I'm breathin' it don't even feel like livin'

I hope you feel something when I come through

Cause I know I'm only living when I'm with you
