

You and I

We Three

I think I'm trying to avoid it cause we need all kinds of fixin',

Damn, I'm feelin' tipsy and we haven't started drinkin'
Karma's been a bitch since, ya know our whole last instance
And I don't think I can flip this

You and I going down, baby, down you and I, baby, we're going down

You and I going down, baby, down you and I, baby, we're going down

Cause it's a lot when you're feelin' nothin', smoke some weed just so I feel something

You and I going down, baby, down you and I, baby, we're going down

We tend to just ignore it cause I guess it's not important
I hope you feel the same though, don't tell me if you think no
I like us when we're lying cause it kinda feels like trying
I guess let's drink to that

You and I going down, baby, down you and I, baby, we're going down

You and I going down, baby, down you and I, baby, we're going down

Cause it's a lot when you're feelin' nothin', smoke some weed just so I feel something

You and I going down, baby, down you and I, baby, we're going down

Baby pack what you need
Bring your shirt with no sleeves
Cause it could be a bit warm
The devil's outside the door

Baby pack what you need
Bring your shirt with no sleeves
Cause it could be a bit warm
The devil's outside the door

You and I going down, baby, down you and I, baby, we're going down

You and I going down, baby, down you and I, baby, we're going down

Cause it's a lot when you're feelin' nothin', smoke some weed just so I feel something

You and I going down, baby, down you and I, baby, we're going down

You and I going down, baby, down you and I, baby, we're going d
