

In Love with Myself

Weathers

Every time I think about it
I get sick about it now
Happiness is something that
I have learned to live without

Life, I've learned, is just a game
So heal my soul for heaven's sake
Every time I think about it
I get sick about it now

I'm in love with myself
I don't want nobody else
I'm a freak
I'm a fraud
I'm a liar after all
I'm haunted in my sleep
But I'm at peace
'Cause I'm in love with myself
I don't want nobody else

Thinking back to yesterday
Back to when I still made you proud
(When we were best friends)
Me, myself, and I
I was told that three can be a crowd

Life, I've learned, is just a game
So heal my soul for heaven's sake
Thinking back to yesterday
Back to when I still made you proud

I'm in love with myself
I don't want nobody else
I'm a freak
I'm a fraud
I'm a liar after all
I'm haunted in my sleep
But I'm at peace
'Cause I'm in love with myself
I don't want nobody else

I could be the king
I could be the queen
I could be anything that I please
I could be the spider
I could be the snake
I could be the fears that are keeping you awake
I could be the king
I could be the king
I could be the king
I could be anything that I please

I'm in love with myself
I don't want nobody else
I'm a freak
I'm a fraud
I'm a liar after all

I'm haunted in my sleep
But I'm at peace
'Cause I'm in love with myself
I don't want nobody else
