

# Karma

Weathers

People say that you get what you get  
But your demons, they haunt you around  
You can run, you can hide, you can play  
You can bury them under the ground

She's been away for too long  
She's gonna make right what's wrong

Karma's coming for ya now  
She's got some bad news for ya, coming around  
So if you're gonna sink or swim, just drown, yeah  
'Cause karma's coming for ya, karma's coming for ya

I was dumb and in love and the worst was  
You said that you'd still love me back  
I got a new friend, not my girlfriend  
She's got a temper that gets pretty bad  
Yeah, she's a bitch

You made this mess  
Now live with it, uh

Karma's coming for ya now  
She's got some bad news for ya, coming around  
So if you're gonna sink or swim, just drown, yeah  
'Cause karma's coming for ya, karma's coming for ya

I feel a little good  
I feel a little bad  
But damn I'll drink to that  
Was it worth it, then?  
Did she give you hell?  
Looks like an angel fell

So if you're gonna sink or swim, just drown, yeah  
'Cause karma's coming for ya, karma's coming for ya
