

Take Me Home

Weathers

Take me home tonight
'Cause I don't know how to talk to you
I don't know the reason why
My feet can't move across the room
And she knows that I know that I'm stuck here
And I know that she knows that I'm too scared

Yeah, yeah, yeah

Yeah, I'm trying
Can't you see that I'm dying?
Maybe you could just
Take me home, take me home tonight
Take me home, take me home tonight
I'm frozen, I'm not the best at closin'
Maybe you could just
Take me home, take me home tonight
Take me home, take me home tonight
Take, take me home
Take me home, take me home tonight

Rehearsed it a thousand times
My closet's in recovery
The mirror knows every line
I call it self-discovery
And she knows that I know that I'm stuck here
And, oh, shit, she's walkin' here

Yeah, I'm trying
Can't you see that I'm dying?
Maybe you could just
Take me home, take me home tonight
Take me home, take me home tonight
I'm frozen, not the best at closin'
Maybe you could just
Take me home, take me home tonight
Take me home, take me home tonight
Take, take me home
Take, take me home
Take, take me home
Take me home, take me home tonight

What the hell do I say?
What the hell do I do?
How do I get close to you?
How do I get close to you?

Yeah, I'm trying
Can't you see that I'm dying?
Maybe you could just
Take me home, take me home tonight
Take me home, take me home tonight
I'm frozen, I'm not the best at closin'
Maybe you could just
Take me home, take me home tonight
Take me home, take me home tonight
Take, take me home

Take, take me home
Take, take me home
Take me home, take me home tonight
