

Just Imagination

Webb Pierce

I guess you just imagine that you love me
For once just say that your heart would be just mine
But even though it was just imagination
You were my inspiration all the time

I know just how it feels to hold you oh so tight
It hurts me now to know my dear that you were once just mine
Now that I know you share you love with others
Each little dream I had is gone forever

I wonder if in your imagination
You'll imagine who I'm dreaming of
When your heart was my heart's destination
But now I know I'll never win your love

I know just how it feels to hold you oh so tight
It hurts me now to know my dear that you were once just mine
Now that I know you share you love with others
Each little dream I had is gone forever
