

Missing You

Webb Pierce

Missing you
Can't help but wish that you
Were in my arms tonight
Makin' love with me

Kissin' you
That's all I want to do
It's never seemed just right
Now that we are apart

I always spend my time just writing lines to you
Can't wait for you to write saying you love me too

Missing you
Can't help but wish that you
Were in my arms tonight
Makin' love with me

I always spend my time just writing lines to you
Can't wait for you to write saying you love me too

Missing you
Can't help but wish that you
Were in my arms tonight
Makin' love with me
