

Take Time

Webb Pierce

Well if you haven't found time to tell your girl
She's the sweetest little thing in this whole wide world
You'd better take time
You better take take take a little time

Well if you haven't found time to hold her hand
And make her know she's got a appreciative man
You'd better take time
You better take take take a little time

Some Casanova's gonna come along
And sing your girl a mighty pretty love song
You'd better take time
You better take take take a little time

Well if you haven't found time to kiss her lips
And make her little heart do a million flips
You'd better take time
You better take take take a little time

Some local yokel's gonna come right by
And you're gonna be wondering why why why you didn't
You didn't take time
You didn't take take take a little time
You better take take take a little time
