

Walking the Streets

Webb Pierce

I'm walking the streets watching the sun go down
Since you went away I'm the loneliest guy in town
The sun's sinking low leaving me sad and blue
Walking the streets I'm thinking only of you

The lights have gone out just like your love has died
I try to hold back tears and hold back my pride
I've got no place to go just wearing out my shoes
Walking the streets I'm walking with the blues

These lonesome ole streets are deserted just like me
A hound dog tags along to share my misery
The sun's coming up the milk man on his way
Walking the streets another lonely day

I'm walking the streets watching the sun go down
Since you went away I'm the loneliest guy in town
The sun's sinking low leaving me sad and blue
Walking the streets I'm thinking only of you
