

You Scared the Love Right out of Me

Webb Pierce

Well you scared the love right out of me
Oh when you said you wasn't free
Since I found out that you are hitched
I think it's time that I made a switch
Cause you scared the love right out of me

All the time I didn't know
It could have been my fate you know
So I'm checking out
And I'll tell you why

I think my love has up and died
This never happened to me before
I'm hoping it never happens again for sure
Cause you scared the love right out of me

Well you scared the love right out of me
Oh when you said you wasn't free
Since I found out that you are hitched
I think it's time that I made a switch
Cause you scared the love right out of me

All the time I didn't know
It could have been my time to go
So I'm checking you out
And I'll tell you why

I think my love has up and died
This never happened to me before
I'm hoping it never happens again for sure
Cause you scared the love right out of me
