

# Respect and Honor

Webbie

Yeahhh...

[Chorus - Lundo:]

You never tried to fold on me, fold on me  
Ain't try to keep control of me, 'trol of me  
When you ain't around I still hear what you said  
Tellin me that you could keep that bread  
You didn't have to ride for me ride for me  
For you I swear I'll always keep it trill  
I know I can trust ya don't need [?]  
Respectin at all no won't trade it for no one  
Keep me one promise  
Just respect and honor  
Respect and honor...

[Webbie:]

Guess who around  
Yes he around  
The best is around  
Still too young to be laying down and gettin too old to be messin around  
All you do is wear sexy ass dresses around showin all my titties and all my  
thighs  
Lay around and found out all those times  
Yo lil bad ass told all those lies  
Love, I had that for you  
Took half, and gave the rest to you  
I shared a lot of love with different girls I saved the best for you  
True, I did this and that  
Dog chased the kitty cat  
You ain't supposed to go and get me back girl you too good for that  
I ain't supposed to take you back no I'm too hood for that  
Savage Life been got us out the hood almost forget  
I just wanna stop loving you but girl I can't for shit  
Girl don't you let nobody tell you that you ain't the shit  
And you know I'm legit you know the real deal  
Would've rode for a hundred years and I still will  
Ima honor, treat you like my momma  
Watch it girl I got you girl I promise

[Chorus]

[Wankaego:]

Respect and honor can you please keep one promise  
If I can keep it a thousand can you at least keep it one hundred  
You ain't gotta shower me with no hundreds  
I was there before you had money  
If I was only with you then for a check I would've left on the first train c  
omin  
Ima hold you down cuz you lift me up  
Boy I'll ride for you  
Never tear me down only build me up  
Boy I'll die for you  
Baby I would cry for you  
Like Jodeci it's takin over me baby tell me what I'm to do  
Yeah Ima always be the same bitch  
You came up in the game with  
So you can ball with the same bitch

That you ain't have a muthafuckin thang with  
That's me let's make it forever no stoppin or trippin crazy bout each other  
like bobby and Whitney  
We fuckin I'm feelin you all in my kidneys  
I trust you I love you need all of you in me  
You always been there to console me  
No you never changed a note  
Plus you not tryna control me  
Cuz you ain't a remote  
This our channel  
All them other hoes watch us  
But we too trill they can't stop us

[Chorus]
