

Bring Your Own Blood

Wednesday 13

Okay, guys! Get it straight. Coolest party of the year. Everybody's gonna be here. Don't make me look like an idiot.
Okay... God... knock on the door already.
Ugh, come on, I just wanna party!

There's a party and I want you to come
But bring your own blood
Bring your own blood
Monster sluts, guns and grotesque stuff
But bring your own blood
Bring your own blood

The moonlight's shining on the moonshine
And if you're gonna call the doctor, call Frankenstein
I think I wanna put a spell on you
Now stirring up the madness in my witches brew

So don't you leave your house alone
'Cause you may never ever get back home
I love to watch your skin crawl
'Cause you've got blood and now I want it all
The moon will rise and darkness falls
Bring your own blood, bring your own blood
I know we'll all be dead by dawn
'Cause you've got blood and now I want it all

This party's like a hit and run
But bring your own blood, bring your own blood
And we'll get loaded like a handgun
But bring your own blood, bring your own blood

The moonlight's shining on the moonshine
And if you're gonna call the doctor, call Frankenstein
I think I wanna put a spell on you
Now stirring up the madness in my witches brew

So don't you leave your house alone
'Cause you may never ever get back home
I love to watch your skin crawl
'Cause you've got blood and now I want it all
The moon will rise and darkness falls
Bring your own blood, bring your own blood
I know we'll all be dead by dawn
'Cause you've got blood and now I want it all

Ashes to ashes
Dust to disgust
'Cause I want blood
And you've got more than enough
Ashes to ashes
Dust to disgust
'Cause I want blood
And you've got more than enough

The moonlight's shining on the moonshine
And if you're gonna call the doctor, call Frankenstein
I think I wanna put a spell on you

Now stirring up the madness in my witches brew

So don't you leave your house alone
'Cause you may never ever get back home
I love to watch your skin crawl
'Cause you've got blood and now I want it all
The moon will rise and darkness falls
Bring your own blood, bring your own blood
I know we'll all be dead by dawn
'Cause you've got blood and now I want it all

Come on, I just wanna party!
