

## Decompose

Wednesday 13

You're singing your sorrows, no one cares and no one's listenin  
g

And there's no tomorrow, just pain and suffering for eternity

And I hope you suffer, you will never ever rest in peace

Just lie in your casket, soon the worms they slowly start to fe  
ast

And now you're lying there decaying

Forever, unforgiven

I loved it when you stopped living

Rot away in your grave six feet below

I swear to curse your name as you decompose

And there's no forgiveness, as you are lying right where you sh  
ould be

Your rotting cadaver can never ever rot enough for me

And I hope you suffer, you will never ever rest in peace

Just lie in your casket, soon the worms they slowly start to fe  
ast

And now you're lying there decaying

Forever, unforgiven

I loved it when you stopped living

Rot away in your grave six feet below

I swear to curse your name as you decompose

I want you to know

That I curse you as you decompose

As you decompose

And now you're lying there decaying

Forever, unforgiven, I loved it when you stopped living

Rot away in your grave six feet below

I swear to curse your name as you decompose

I want you to know

That I curse you as you decompose

I want you to know

That I curse you as you decompose

As you decompose
