

# Horrier

Wednesday 13

In the dead of night it's rising  
Something so horrifying  
The madness has begun  
All hail the wretched one

It's just so fast and frightening  
Ghastly and terrifying  
Destroyer of the faith  
Horrify and mutilate

Exorcisms all be damned  
God bless the devil now he commands  
Vultures circle up above  
Waiting to feast on the ones you love

Nobody's getting out alive  
The butchering begins hooray for homicide  
The world's one giant mortuary  
Full moon arise tonight above the cemetery

Horrier  
Horrier  
Horrier  
Horrier

The wrath of death upon you  
There's nothing that you can do  
The point of no return  
See the world crash and burn

Your blood is what I'm after  
Such a violent disaster  
Your death is my desire  
I am the Horrier

Exorcisms all be damned  
God bless the devil now he commands  
Vultures circle up above  
Waiting to feast on the ones you love

Nobody's getting out alive  
The butchering begins hooray for homicide  
The world's one giant mortuary  
Full moon arise tonight above the cemetery
